

## DECLARATION OF EU RoHS COMPLIANCE

We, Astron Wireless Technologies, Inc., hereby confirm that to the best of our knowledge all **antenna products** manufactured at our corporate facilities, meet the requirements and are in full compliance with EU Directive 2011 superseding Directive 2002/95/EC with respect to the following materials:

### Materials\*

Pb – Lead none \*\* as per manufacturing

CD – Cadmium, none \*\*

Hg – Mercury, none \*\*

Cr6 – Hexavalent Chromium, none \*\*

PBB – Polybrominated Biphenyls, none \*\*

PBDE – Polybrominated Diphenylethers, none \*\*

\* Materials as restricted by the EU RoHS Directive 2011 and the Directives 2002/95/EC, 2000/35/EC, 'ELV Directive'

\*\* Materials are not intentionally added

**Our products supplied to customers do not contain any substances which are prohibited by the RoHS directive according to our present knowledge.** The materials and processes used for the manufacturing of Astron antennas do not intentionally contain added heavy metals such as cadmium, chromium-VI, lead and mercury or their compounds, nor polybrominated biphenyls (PBB) and polybrominated diphenylethers (PBDE).
